Professional Profile

I am passionate about lifelong learning and leveraging technology for a positive impact. I am enthusiastic about Software development and dedicated to using machine learning to make a difference in people's lives.

Core Skills

- Web development
 - Google Cloud, GCP
 - Linux
 - Networking
 - Remote work
 - SQL
 - Communication
 - Problem-solving
 - Project management
 - Time management
 - Leadership
-

Education

Bachelor's degree | University of Rwanda | Nov 2019 - May 2024 | In my university education, studying **Information Systems**, I consistently rank among the top students in my department. I am a lead of the Google Crowdsourc Learning community and a core team member in the Google Developer student club. These roles have enabled me to attend events organized by Google which have sharpened my communication skills. I frequently lead the groups and leverage my outstanding English proficiency for effective collaboration.

Career Summary

September 2023 - Present

Canada, Quebec Software developer, Remote

Outline

Remote

I work as a remote software developer at Agence Sitewebart. I focus on developing web and mobile applications. My responsibilities include designing, coding, and maintaining web and mobile applications to meet clients' requirements and ensure their functionality, security, and user-friendliness.

October 2023 - Present

ENCORE Investment Company Software Developer

Outline

Remote

I'm a software developer working on shaka.rw, an e-commerce platform connecting sellers and buyers. I use NodeJS, ReactJS, Svelte, and PostgreSQL to enhance the platform and develop it for company and client needs.

October 2023 - Present

MTN Rwanda Software engineer intern

Outline

Hybrid

I'm an intern at MTN Rwanda, gaining valuable experience in software engineering with a focus on NodeJS, ReactJS, and PostgreSQL, within a company that serves over 7 million subscribers, allowing me to contribute to impactful projects.

October 2022 - Apr 2023

Andela Rwanda, Remote
Trainee, Intern

Outline

Remote

I was an intern at Andela (ATLP) Rwanda where we were doing web development using different technologies like JavaScript, PostgreSQL, Node, React, and Figma. This experience helped to develop my communication skills, time management, and teamwork skills.

May 2022 - Dec 2022

Google
Google Africa developer scholarship

Outline

Remote

I received the Google Africa Developer Scholarship (GADS) in partnership with Andela. I specialized in cloud computing using Google Cloud Platform (GCP), gaining expertise in its services and tools. Working with a diverse community of developers across Africa and this experience helped to apply my skills to real-world projects.

Dec 2019 - Aug 2021

Delta Studio, Gasabo District
Photographer

Outline

I participated in various events as a photographer, videographer, and sound engineer. I also applied my skills to real-world films that participated and won prizes at different festivals such as the Mashaliki African Film Festival.

Hobbies and Interests

Coding, solving Mathematics questions, debating, and reading.

Programming language

JavaScript, TypeScript

Python (Programming language)

C and C++

Dart (programming language)

PHP

Java

Certificates
